ABOUT

POWERSUCCESS

PowerSuccess is a totally unique service-as-a-subscription programme that gives you access to a CRM administrator and a long-term plan for success for a predictable monthly fee. It's an affordable option for both those who are just starting out with Dynamics CRM or Microsoft Dynamics 365 for Sales as well as those who already use CRM but want to take their systems to the next level.

Access to a CRM Expert When You Need It

One of the biggest benefits of the PowerSuccess programme is that you'll work closely with a dedicated CRM expert who will help guide your use of Dynamics 365 over time. Your "Success Engineer" will take the time to understand your business and your business processes, tailoring your CRM system to your needs. Your dedicated Success Engineer is also backed by a world-class team of CRM experts who can help should the need arise. Having access to your Success Engineer eliminates the need for you to hire your own CRM administrator internally, saving you the pain of dealing with HR, payroll, ramp-up time, training and turnover.

6 Phases to Success

Opting for the predictability of hosted CRM shouldn't mean you have to settle for an out-of-the box, generic solution that doesn't fit your business. Utilising PowerSuccess, you leverage a six-phase process to ensure the perfect fit:
